If the Piano Is a Favorite With the Public

There Must Be a Reason.

Therefore in selecting a piano always have the reasons explained in order that you may determine for yourself whether "the reason why" is sufficient to justify your spending three or four hundred dollars for this or that piane. Now The Cable Company does claim a superior line of instruments, and not only does it claim, but it is prepared and does advance good, sound business logic to support its claims, so that you do not deal in theory, but upon the fundamental principles of fact as applied to modern business practice.

A man of large affairs in one of our prominent Eastern cities by too close attention to business, too little exercise and too many club dinners, intaily began to pay nature's tax, levied in the form of chrone stomach trouble; the failure of his digestion brought about a nervous fritability, making it impossible to apply himself to his daily business and finally deringing the inducys and says. FOOD AGAIN,

A Mighty important Subject to Everyone.

A Boston lady talks ontertainingly of food and the changes that can be made in health by some knowledge on that line. She says:

"An injury to my sping in early we manhood left me subject to severe sick headaches, which would last three or four days at a time, and a violent course of drugging at the hands of old-fashioned physicians brought on constipation, with all the fils that follow.

"My appetite was always light and uncertain, and many kinds of food distressed me.
